Come curious... Leave inspired...

Swindon is full of creative surprises...

Where every door tells a different story... ...and creativity comes to life!

Imagine wandering into an artist's studio, chatting about what inspires them, watching a pot take shape on the wheel, discovering a painting that makes you smile, or finding a hidden creative space just around the corner.

That's the magic of Swindon Open Studios.

For two weekends each September, artists across Swindon welcome you into studios, galleries and shared exhibition spaces to experience creativity, direct from the artists. Whether you're an avid art lover or simply looking for an inspiring day out, you'll discover original artwork, demonstrations, workshops, friendly faces and stories that stay with you long after your visit.

Every conversation, every visit and every purchase helps support local, independent artists and keeps creativity thriving in our community.

So take your time, follow your curiosity and see where the next door leads.

Many years ago Mary made stained glass, but for personal reasons it was packed away and left in the attic. Ten years ago, while in Cirencester, she discovered fused glass and was instantly fascinated. She became captivated by how heat transforms it, and today still creates jewellery, bowls, pictures, and flowers.

Artists and Events

Every year the committee rely on a wider team of fantastic volunteers who help us with updating the website, managing social media, supporting new artists as they prepare for the event, designing and updating the brochure, gathering photographs, hanging up banners and handing out flyers.

Not all our volunteers are artists or makers but they all have a passion for encouraging and supporting the visual arts in Swindon and without them **Swindon Open Studios** would simply not happen.
